

Table of Contents

Chapter 1

INTRODUCTION

1.0 The Purpose of the InstallationMasters® Program	11
2.0 Using This Manual.....	13
3.0 Skill and Knowledge Requirements of the Installer	14
4.0 Responsibility of the Various Trades.....	14

Chapter 2

PRODUCT TYPES, COMPONENTS AND MATERIALS

1.0 Window Types	15
1.1 Double Hung (Single/Triple Hung) Windows	15
1.2 Vertical Sliding Windows.....	16
1.3 Horizontal Sliding Windows	16
1.4 Projected Windows – Awning, Hopper and Casement.....	17
1.5 Fixed Windows.....	17
1.6 Basement Windows.....	18
1.7 Specialty Windows.....	18
1.8 Bay and Bow Windows	19
1.9 Garden Windows.....	19
1.10 Vertically and Horizontally Pivoted Windows.....	20
1.11 Side-Hinged (Inswinging) Windows	20
1.12 Top-Hinged (Inswinging) Windows.....	21
1.13 Dual Action Windows.....	21
1.14 Hinged Egress (Rescue) Windows	21
1.15 Dual Windows	22
1.16 Jalousie Windows	22
1.17 Tropical Awning Windows.....	23
1.18 Jal-Awning Windows.....	23
1.19 Secondary Storm Products (SSP's).....	23

2.0 Door Types	24
2.1 Side-Hinged Exterior Doors	24
2.2 Hinged Glass Doors	24
2.3 Sliding Glass Doors	25
2.4 Dual Action Hinged Glass Doors	25
2.5 Typical Understanding of Exterior Door Handling	26
3.0 Components and Materials	26
3.1 Components	26
3.2 Materials	28

Chapter 3

PERFORMANCE CONSIDERATIONS, CODES AND STANDARDS

1.0 Window and Door Performance Considerations	29
1.1 Structural Adequacy and Wind Loads	29
1.2 Windows and Energy	29
1.3 Condensation	30
1.4 Glazing and Framing Considerations	31
1.5 Sound Transmission	33
2.0 The Role of Codes, Standards and Specifications	33
2.1 Energy Codes	33
2.2 Standards	33
2.3 Home Rule Doctrine	34

Chapter 4

PERFORMANCE CONSIDERATIONS

1.0 Performance Considerations Related to Installation	35
1.1 Water Penetration Resistance	35
1.2 Air Infiltration Resistance	37
1.3 Occupant Safety and Accessibility	38

Chapter 5

WINDOW RATINGS AND LABELS

1.0 Window Ratings	43
1.1 Performance Requirements and Ratings	43
2.0 Labeling	44
2.1 Permanent Labels - Certification Labels, Etches or Markings	44
2.2 Permanent Labels - Child Safety Labels	45
2.3 Temporary Labels	46

Chapter 6

INTEGRATION WITH THE BUILDING ENVELOPE

1.0 Wall Framing Around Windows and Doors	47
2.0 Water Resistive Barrier (WRB) Systems	48
2.1 Surface Barrier Systems.....	49
2.2 Membrane/Drainage Systems	50
2.3 Exterior Insulation and Finish System (EIFS) and Glass Fiber Reinforced Concrete (GFRC) Walls.....	51

Chapter 7

FLASHING

1.0 Flashing Materials	53
1.1 Flexible Flashing	54
1.2 Rigid Flashing.....	57
1.3 Liquid Applied Flashing.....	58
2.0 Rigid Head Flashing	59
3.0 Sill Pan Flashing	59
3.1 Types of Sill Pan Flashing Materials and Fabrication.....	60

Chapter 8

TYPES OF REPLACEMENT WINDOWS AND DOORS

1.0 Frame Style (Mounting Flange, Block, Flush Fin)	63
1.1 Mounting Flange Windows and Doors.....	63
1.2 Block Frame Windows and Doors	65
1.3 Flush Fin Windows and Doors	65
1.4 Variation in Door Types.....	65
2.0 Window and Door Components for Installation	66
2.1 Subsills	66
2.2 Stool Trim and Sill Members	67
2.3 Interior Trim/Casing	67
2.4 Capping/Cladding	68
2.5 Jamb Extensions	68
2.6 Mullion Clips.....	69
2.7 Exterior Casing/Brick Mould	69
2.8 Mounting Clips or Brackets	70
2.9 Sash Dividers / Grids / Muntins	70
2.10 Integral Ventilating Systems	71

Chapter 9

INSTALLATION MATERIALS AND SUPPLIES

1.0 Shims	73
1.1 Types of Shims	73
1.2 Shim Application	74
2.0 Construction and Installation of a Wood Buck	75
3.0 Fasteners	76
3.1 Fastener Materials	77
3.2 Separation from Incompatible Materials	77
4.0 Sealants	78
4.1 Choosing the Proper Sealant	79
4.2 Joint Movement and Sealant Movement Capability	79
4.3 Sealant Adhesion	80
4.4 Sealant Compatibility	80
4.5 Joint and Sealant Dimensions	83
4.6 Surface Preparation	83
4.7 Use of Back-Up Materials	84
4.8 Sealant Application and Tooling	86
5.0 Cavity Insulation	87
5.1 Low Pressure Expanding Foam Products	88

Chapter 10

MANUFACTURER'S INSTALLATION INSTRUCTIONS

1.0 Manufacturer's Installation Instructions	95
1.1 When Conflicts Arise	96
1.2 Special Circumstances	96

Chapter 11

PREPARING FOR INSTALLATION

1.0 General Installation Guidelines	97
2.0 Measuring, Clearances and Tolerances	97
2.1 General Measuring Guidelines	97
2.2 Taking Measurements	98
2.3 Measuring the Rough Opening – the First Step Toward Determining the Size	98

2.4 Dimensions: Horizontal, Vertical and Diagonal	99
2.5 Beyond Measurements: Level, Plumb and True	102
2.6 Clearance Provisions.....	103
2.7 Installation Tolerances	104
3.0 Receiving Products on Site	105
3.1 Verifying Proper Location.....	105
3.2 Inspection of New Products	105
3.3 Handling and Storage	105

Chapter 12

JOB SAFETY

1.0 Job Site Health and Safety Practices	107
1.1 Health and Safety Inspection	107
1.2 Hazardous Materials	107
1.3 Job Site Safety Issues.....	108

Chapter 13

INSTALLATION/APPLICATION OF FLASHING MATERIALS, RIGID HEAD FLASHING, SILL PAN FLASHING, FASTENERS AND SEALANTS

1.0 Selecting, Cutting and Applying Flashing.....	113
2.0 Rigid Head Flashing	115
3.0 Sill Pan Flashing	116
3.1 Types of Sill Pan Flashing Materials and Fabrication.....	116
3.2 Leg Height of Rigid Sill Pan Flashing.....	120
4.0 Fastener Application.....	122
5.0 Sealant Application and Tooling.....	123

Chapter 14

CHOOSING BETWEEN REPLACEMENT AND RETROFIT BEFORE STARTING THE JOB

1.0 What is the Best Product for Each Job?.....	125
2.0 General Installation Guidelines.....	126

Chapter 15

REMOVING THE EXISTING WINDOW – RETROFIT OR REPLACEMENT

1.0 Removal of Sash or Panel Only (Retrofit)	129
1.1 Removal of Sash from Existing Windows (Inside-Out Method)	130
1.2 Removal of Sash from Existing Windows (Outside-In Method or Flush Fin Application.....)	132
1.3 Removal of Sliding Glass Door Operable Panel and Sill.....	133
2.0 Removal of Entire Frame (Replacement)	133
2.1 Metal Windows	133
2.2 Removal of Block Frame Windows	136
2.3 Removal of Mounting Flange Windows	137
2.4 Removal of an Entire Sliding Glass Door Frame.....	139
3.0 Restore WRB.....	140

Chapter 16

PREPARING THE OPENING

1.0 Assessing the Opening.....	141
1.1 Determining Squareness of the Opening	141
1.2 Make Modifications for Out-of-Square	141
1.3 Verify the Structural Integrity of the Opening	141
1.4 Check the Fit of the New Window or Door	142
1.5 Sill Support for Door Installation.....	142
2.0 Apply Accessories as Needed.....	142
2.1 Capping the Sill	142
2.2 Sloped Sill Adaptor.....	143
2.3 Head Expander	144
2.4 Blind Stop Application.....	144
2.5 Construction and Installation of a Wood Buck.....	144
2.6 Installation of Sill Pan Flashing.....	146
3.0 Protect Incompatible Materials.....	148

Chapter 17

INSTALLING RETROFIT WINDOWS AND SLIDING GLASS DOORS

1.0. Inside-Out Installation of Block Frame Windows.....	151
1.1 Begin Installation	151
1.2 Install Shims and Fasteners	152
1.3 Final Adjustments and Securing	152
1.4 Sealing and Finishing the Exterior	153
1.5 Sealing and Finishing the Interior	154
2.0 Outside-In Installation of Block Frame Windows	155
2.1 Begin Installation	155
2.2 Install Shims and Fasteners	156
2.3 Final Adjustments and Securing	156
2.4 Sealing and Finishing the Exterior	156
2.5 Sealing and Finishing the Interior	157
3.0 Flush Fin Window and Door Installation	158
3.1 Prior to Installing Flush Fin Retrofit Windows and Doors.....	158
3.2 Install Flush Fin Window or Door and Seal the Exterior	159
3.3 Finishing and Sealing Flush Fin Windows and Doors	161

Chapter 18

INSTALLATION OF REPLACEMENT BLOCK FRAME WINDOWS AND DOORS

1.0 Block Frame Windows and Doors in Surface Barrier Walls	163
1.1 Block Frame Windows and Doors Without Brick Mould in Surface Barrier Walls.....	164
2.0 Block Frame Windows and Doors in Membrane/Drainage Walls	167
2.1 Application of Water Resistive Barrier	167
2.2 Installation of Flashing – Block Frame Windows and Doors with Integral Brick Mould in Membrane/Drainage Walls.....	169
2.3 Installation of Flashing – Block Frame Windows and Doors with Non-Integral Brick Mould in Membrane/Drainage Walls.....	170
2.4 Installation of Block Frame Windows in Membrane/Drainage Walls	172
2.5 Installation of Block Frame Doors in Membrane/Drainage Walls	173
2.6 Installation of Block Frame Doors.....	173
2.7 Sealing and Finishing the Exterior – Block Frame Windows and Doors	176
3.0 Finishing the Interior	180

Chapter 19

INSTALLATION OF REPLACEMENT MOUNTING FLANGE WINDOWS

1.0 Mounting Flange Windows and Doors.....	181
1.1 Mounting Flange Window and Door Installation.....	181
2.0 Sealing and Finishing the Exterior – Mounting Flange Windows and Doors.....	185
3.0 Finishing the Interior.....	187

Chapter 20

INSTALLING SPECIAL WINDOWS

1.0 Basement Window Installation.....	189
1.1 Prepare and Check Opening.....	189
1.2 Installation Options	189
2.0 Bay, Bow and Garden Window Installation	190
2.1 Measuring Bay Windows.....	190
2.2 Measuring Bow Windows.....	191
2.3 Measuring Garden Windows.....	191
2.4 Installation of Bay, Bow and Garden Windows.....	192
2.5 Selection and Use of Fasteners for Attachment	193
2.6 Verify Level, Square and Plumb.....	193
2.7 Adding Structural Support.....	193
2.8 Adding a Roof Structure.....	195
2.9 Finishing the Exterior – Bay and Bow Windows.....	198
2.10 Finishing the Interior – Bay and Bow Windows.....	198
3.0 Combination Window Installation.....	198
3.1 Assembly of Combination Windows.....	199
3.2 Limitations and Precautions for Combination Windows	199
4.0 Specially Shaped Window Installation.....	201
4.1 Specially Shaped Window Construction	202
4.2 Modifications to Standard Installation Instructions.....	202
4.3 Adding Support and Bracing.....	203
4.4 Proper Flashing Techniques.....	204
4.5 Proper Shimming and Fastening Techniques.....	205
5.0 Finishing the Interior.....	206

Chapter 21

FINISHING THE JOB

1.0 Quality Control.....	207
1.1 Using Quality Control Checklists	207
1.2 Occupant Safety	209
1.3 Operational Checks and Adjustments	209
2.0 Final Cleaning of Installed Windows and Doors	212
2.1 Use of Protective Coverings	213
2.2 Manufacturer's Instructions	213
2.3 General Cleaning of Light Surface Soil	214
2.4 Some Important Cautions Regarding Any Finish	215
2.5 Washing Glass Surfaces.....	215
3.0 Installation of Screens	217
3.1 Types of Screens.....	217
3.2 Locating the Screen	218
3.3 Screen Installation	219
4.0 Final Site Clean-Up	220
4.1 Removal of Construction Debris.....	220
4.2 Proper Disposal of Debris.....	221

Appendix 1

GLOSSARY	223
